

Curve Value (Likert Units [Scale 1–5])

A : $\beta_{\text{fixed}} = 180$ With Equal Spacing

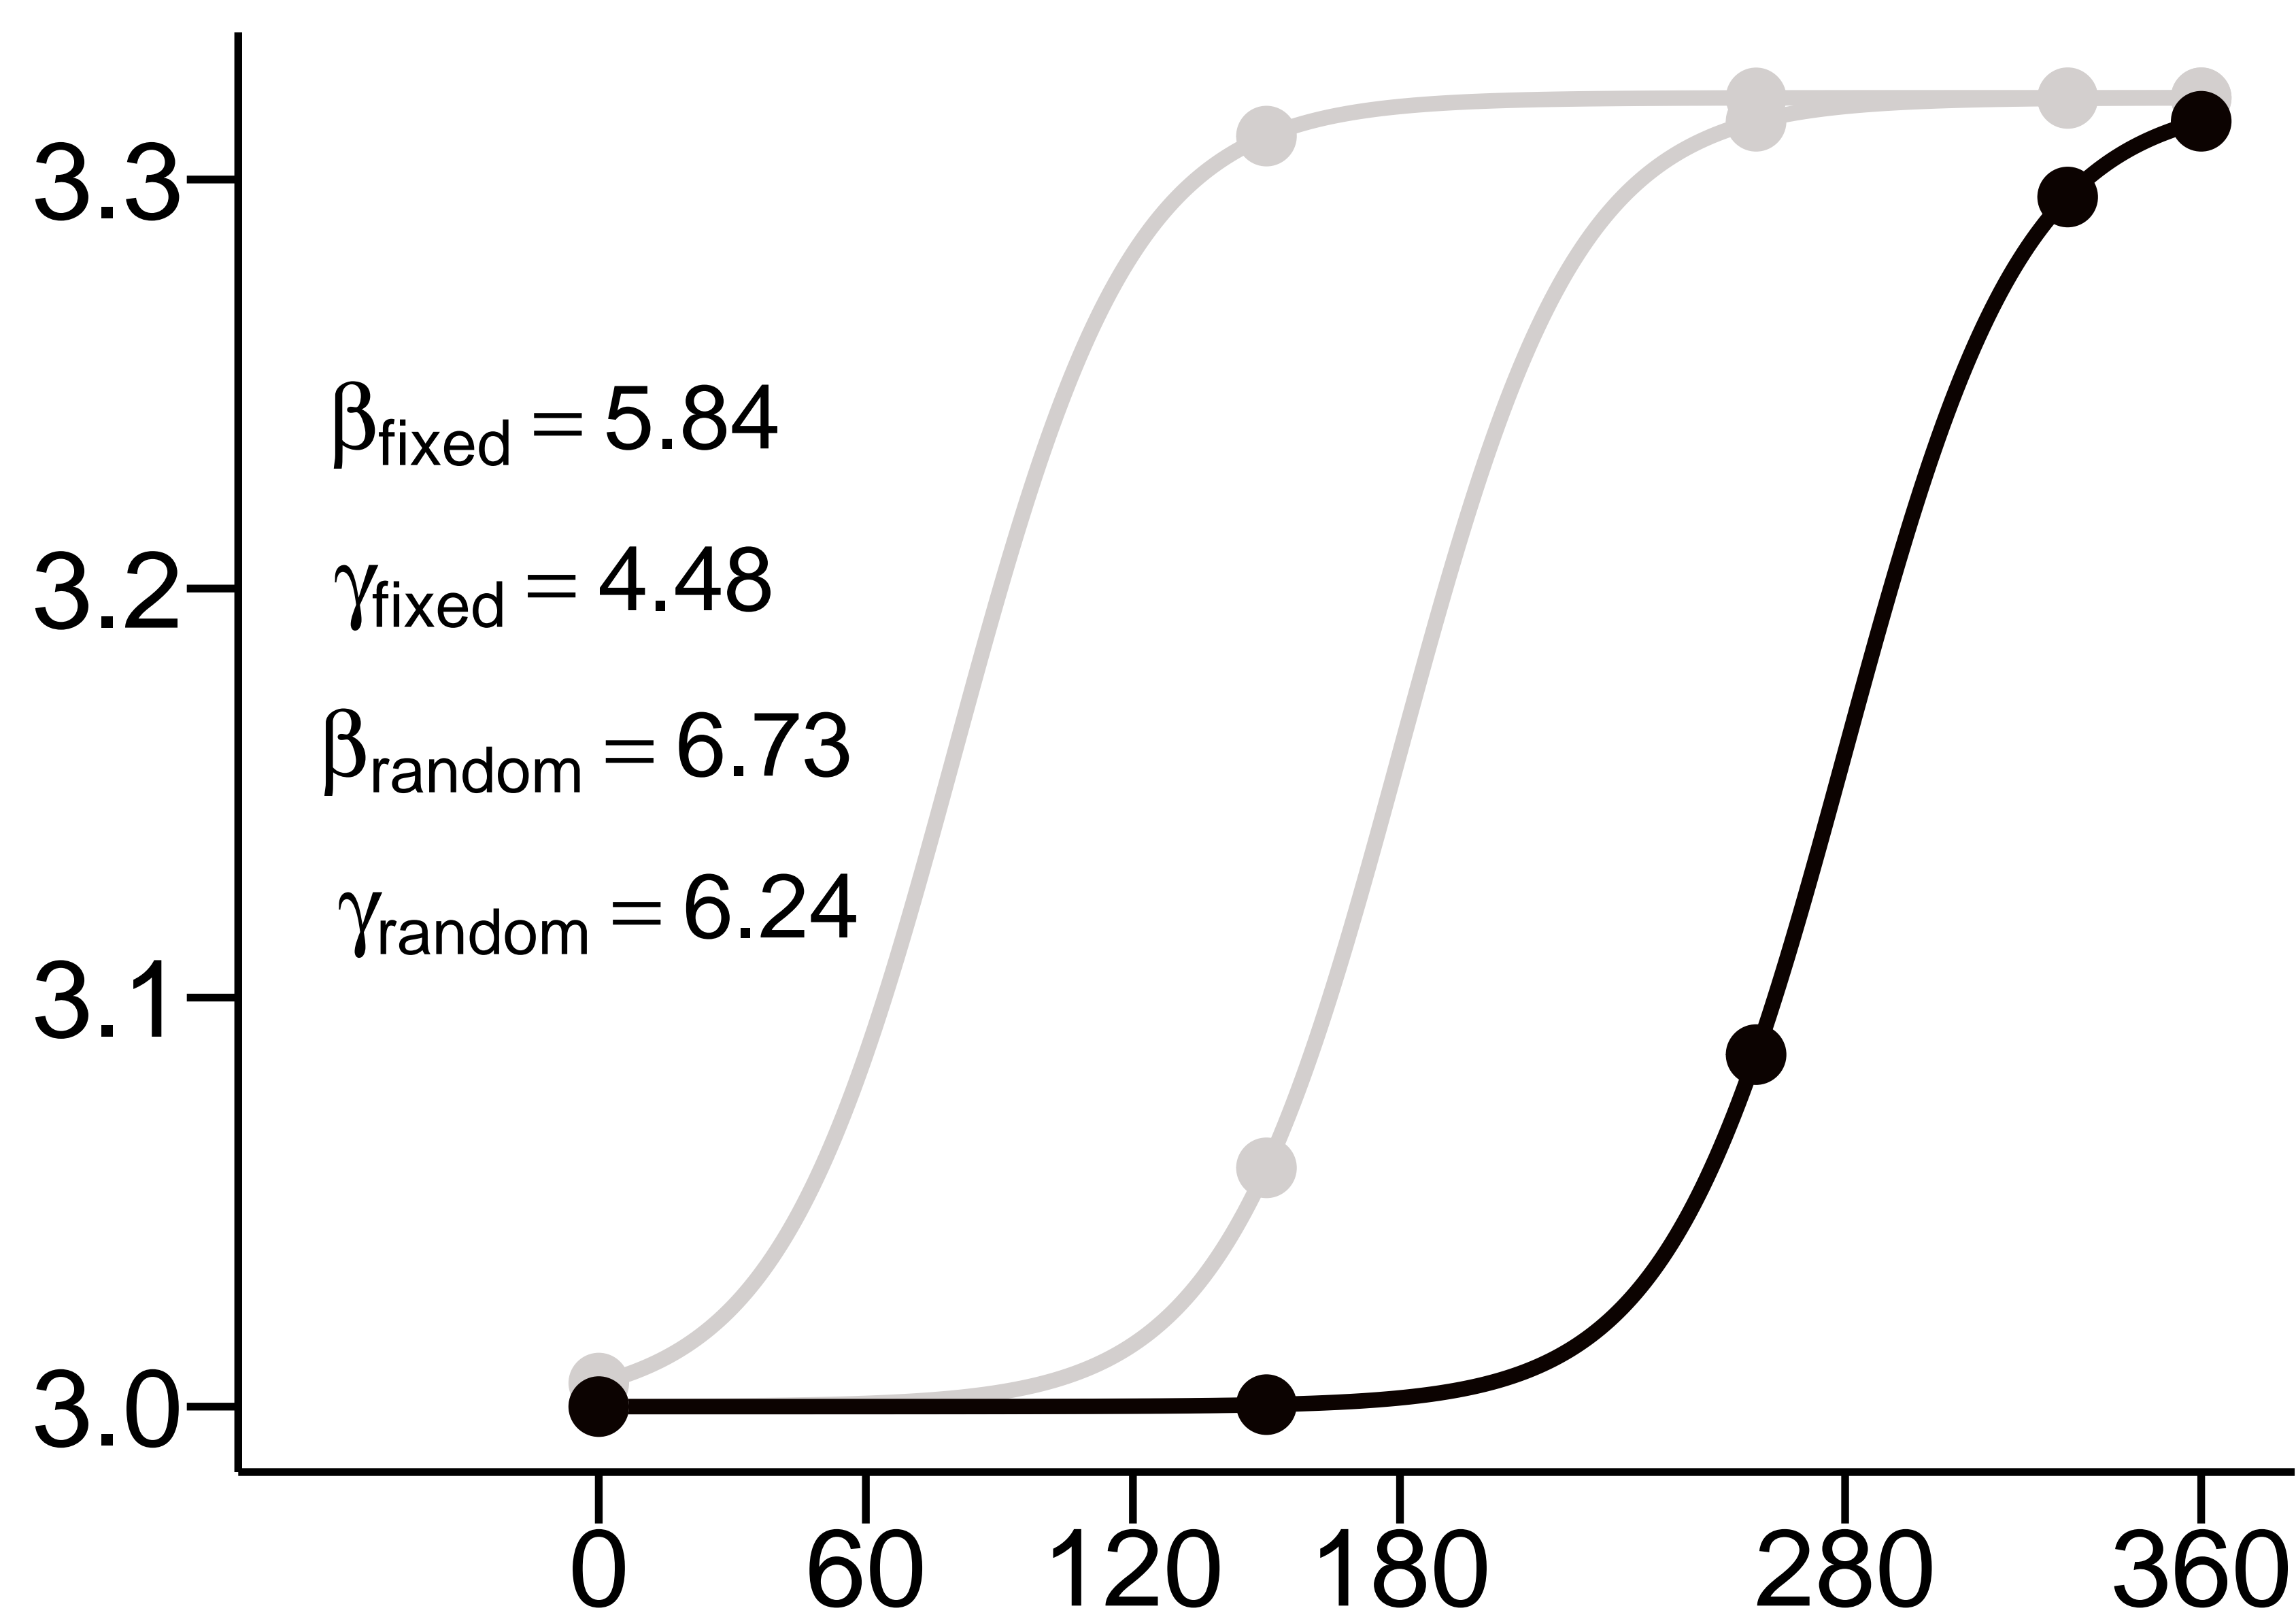

B : $\beta_{\text{fixed}} = 80$ With Time-Interval Increasing Spacing

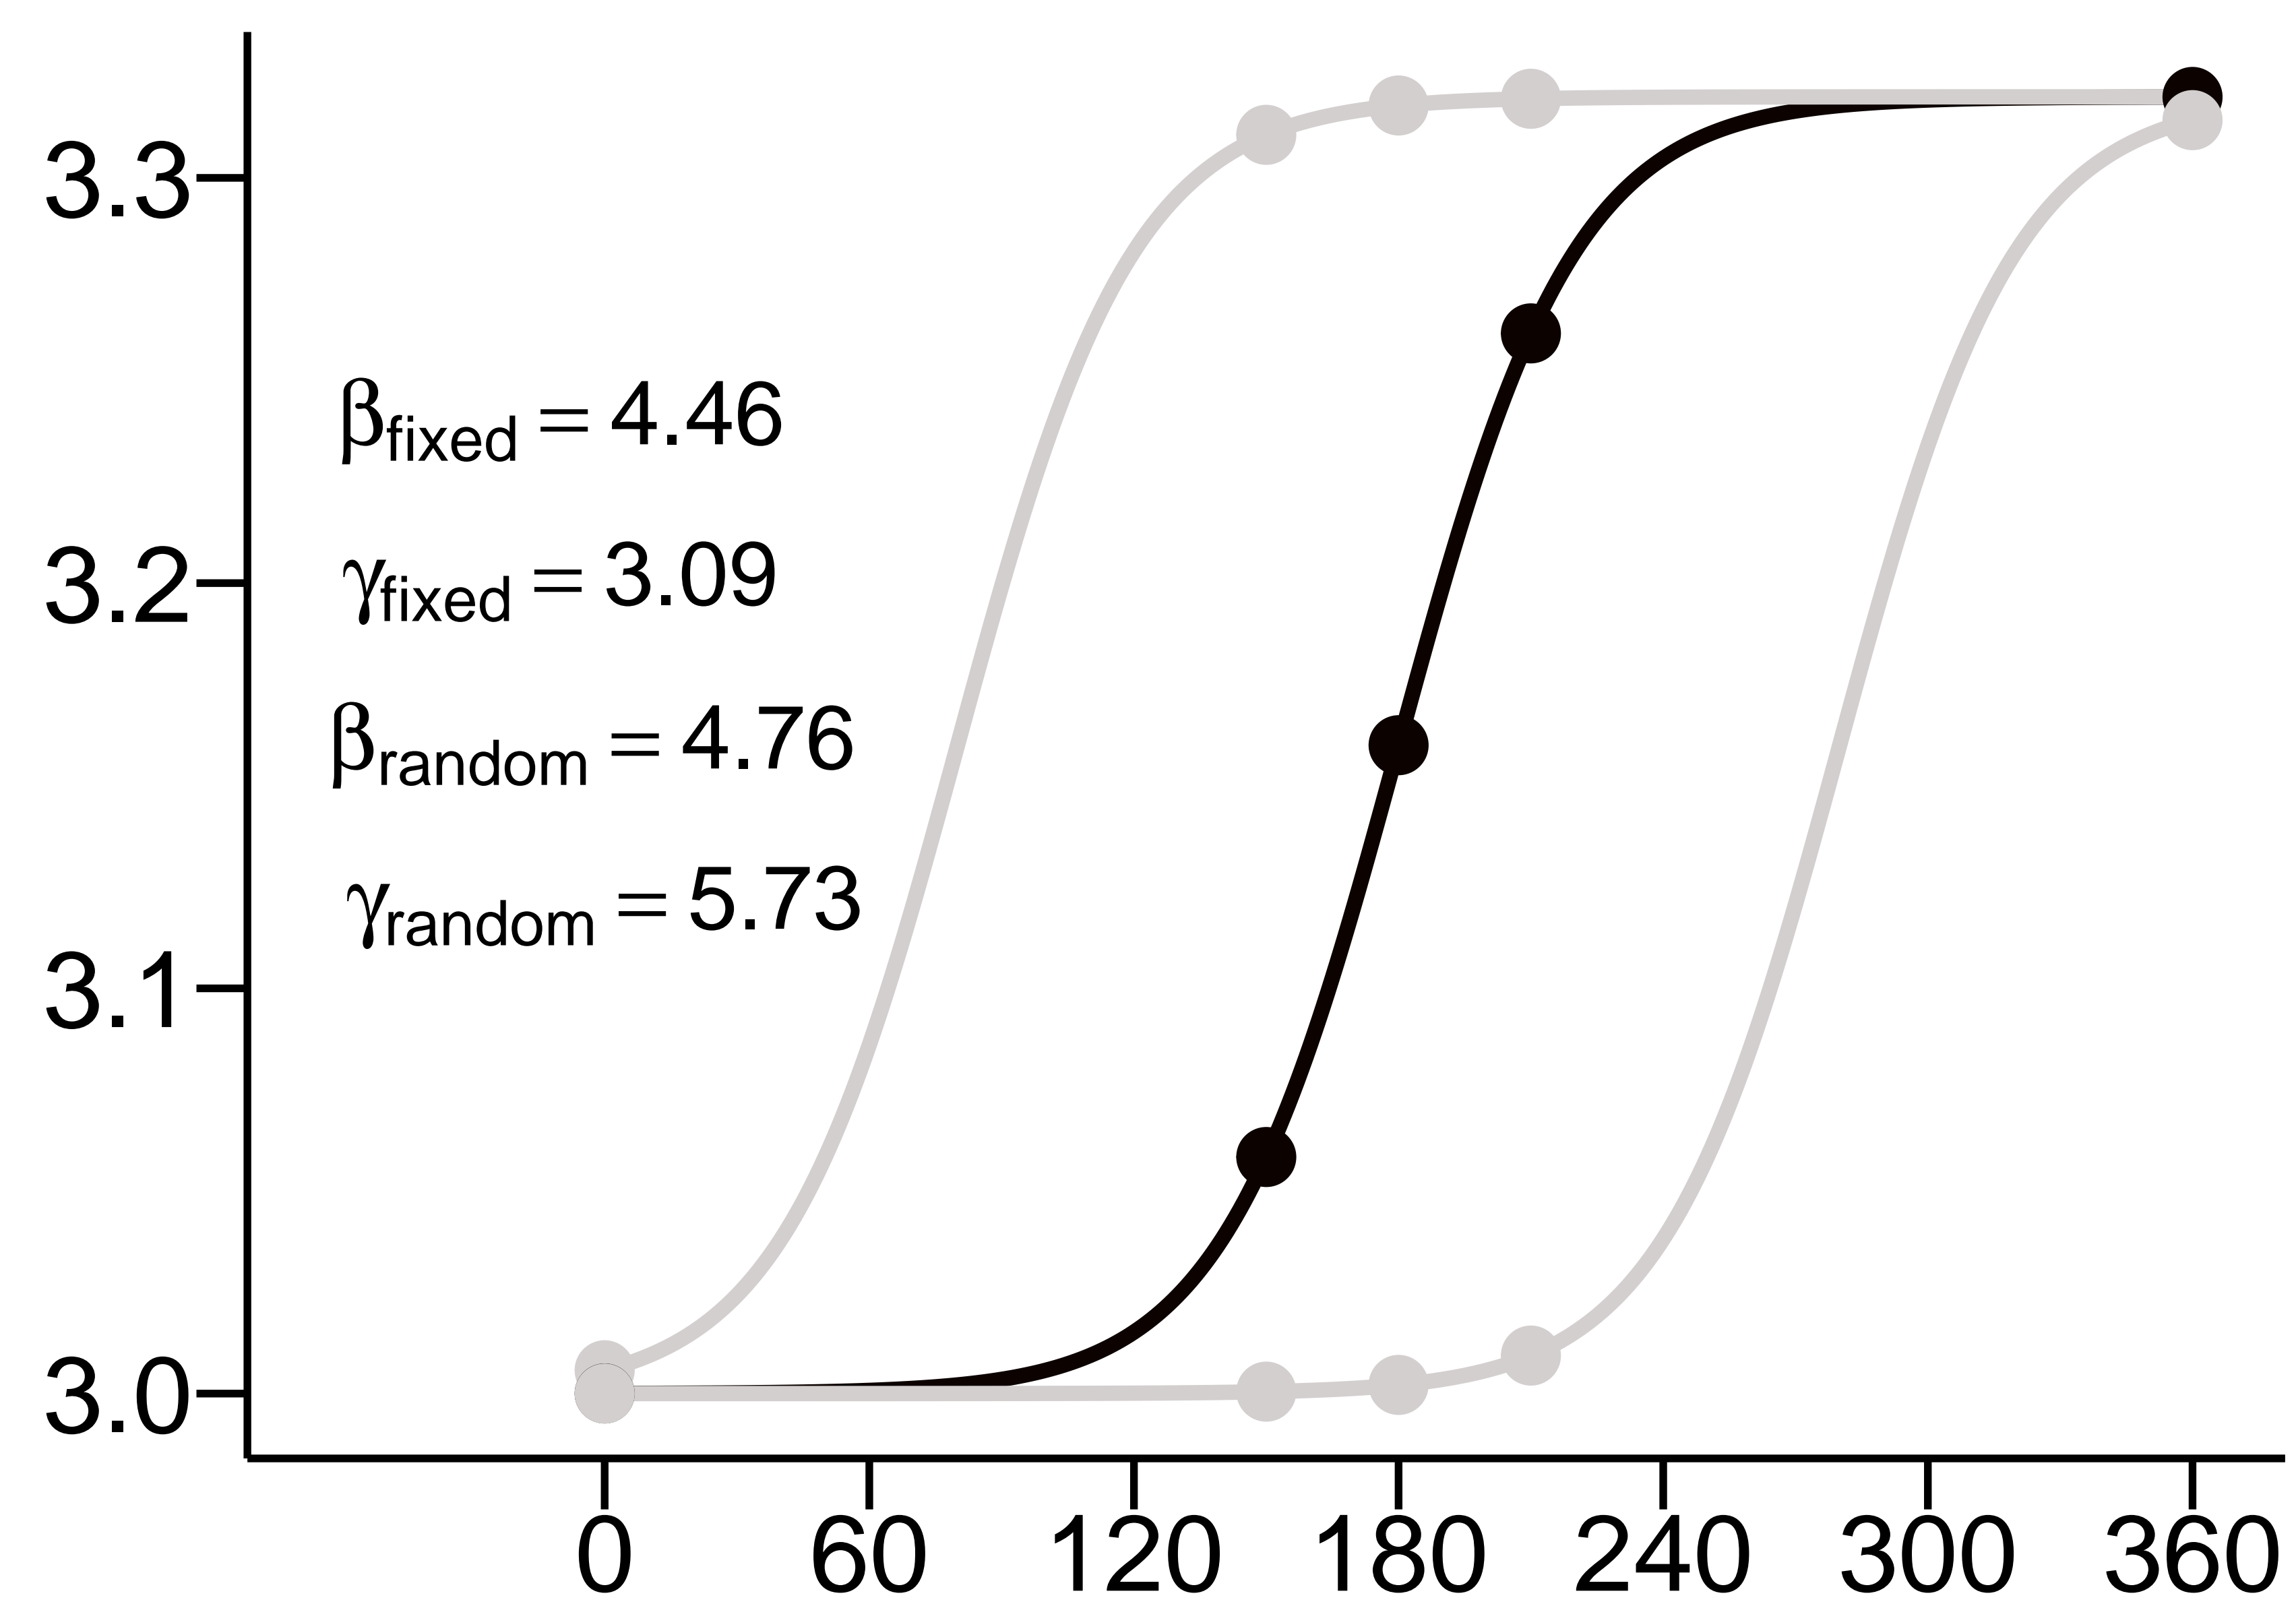

Highest Modelling Accuracy?

- Yes
- No

C : $\beta_{\text{fixed}} = 280$ With Time-Interval Decreasing Spacing

D : $\beta_{\text{fixed}} = 180$ With Middle-and-Extreme Spacing

Measurement Number
